What are your goals for treatment? _____

Informed Consent to Receive Treatment and Care

I hereby voluntarily request and consent licensed medical practitioners in the State of California employed by InBalance Acupuncture PT Inc. DBA InBalance AcuPT to perform procedures within the scope of asian medicine, acupuncture, therapeutic exercises, and manual therapy on me (or on the patient named below, for whom I am legally responsible) for my medical condition(s), as I described in the intake form and during each visit.

Proposed and Alternative Treatments: Treatments at InBalance AcuPT may include: manual therapy, acupuncture, retaining acupuncture needles outside of the clinic, cupping, fire cupping, electrical stimulation, electroacupuncture, Chinese herbal medicine, gua sha (coining/scraping), heat therapy, ear seeds, Tui-Na (Chinese massage), soft tissue mobilization, taping, therapeutic exercises, and lifestyle counseling. I understand these treatments may require physical contact with my practitioner. He or she will verbally ask my permission before initiating any physical contact. Prior to the treatment(s), my practitioner and I have discussed the history, current symptoms, and prognosis of my medical issue(s). We also discussed the nature and purpose of the plan of care and proposed treatment(s). I was given opportunities to ask questions. My practitioner addressed all of my concerns to my satisfaction. Furthermore, we discussed the:

- Potential major benefits and risks of the proposed treatment(s)
- Nature, benefits, and risks of alternative treatments, regardless of the costs
- Other available medical procedures (if known and available), and potential consequences of choosing not to receive treatments

Potential Benefits: I understand I may experience relief of symptoms after any treatments, which may lead to the elimination of my medical problem(s). I understand there are no implied or stated guarantees of effectiveness of any treatment(s).

Potential Risks: I understand that there are potential, but uncommon risks associated with all treatments that include, but not limit to: bruising, numbness, tingling, spasms, swelling, infection, bleeding, soreness, fainting and dizziness. These symptoms at or near the needling sites may last up to 14 days after acupuncture treatments. Burns, blistering, and scarring are uncommon risks of heat therapy. Bruising and redness lasting a few days are risks of cupping, fire cupping, gua sha, and manual therapy. I understand very rare risks associated with all treatments include death, fainting, spontaneous miscarriage, nerve damage and organ puncture (for example, pneumothorax). I understand that certain social habits, lifestyle choices, and other treatments may decrease the beneficial effects of any treatments. These may include alcoholism, sedentary lifestyle, unhealthy diets, pain-relieving medication, blood-thinning medication, steroids, opioids, tobacco, anti-depressants, and other drugs. I understand minor risks may occur. I do not expect my practitioner to be able to explain all possible risks of any treatment(s).

My Responsibilities: I will inform my practitioner of all physical, psychological, and medical conditions, symptoms, medications, surgeries, supplements, allergies, and changes prior to each treatment session. I will immediately notify my practitioner should I try to get pregnant. I agree to comply with the instructions given, during treatment visits, of proper care, removal and disposal of retained acupuncture needles. I agree to contact my practitioner **immediately** if I experience any complications after each treatment. If I experience a medical emergency, I understand I must seek immediate help at a hospital or urgent care facility.
